Temporary Reduced-Fare Cards
If you are issued a temporary Reduced-Fare card, you will have to reapply for a new card every year (every twelve months) upon the card's expiration date. Documentation of compliance from a recognized treatment program will also be required prior to the renewal of temporary cards.

Conditions of Use
The Reduced-Fare card is valid only if you are disabled as stated on your application. The Reduced-Fare card can only be used by the person to whom it was issued and only in accordance with the program guidelines.

If at any time you are no longer disabled as described, your eligibility for the Reduced-Fare Program automatically ceases; you are no longer permitted to use the Reduced-Fare card, and you must return the card to the NFTA.

Any violation of these Conditions of Use may result in a permanent revocation of your eligibility for the Reduced-Fare Program.

DISABILITY VERIFICATION

I am familiar with the Applicant and have examined all applicable documentation (fully identified in the Applicant's Section of this application.) **It is my professional opinion that he/she is a "disabled person" within the meaning of the term set forth in this document, as follows:**

Check All That Apply:

❑ **Blindness** –there is a central visual acuity of 20/200 or less in both eyes with the use of correcting lenses. Each eye which, accompanied by limitation in the field of vision such that the widest diameter of the visual field subtends as angle of greater than 20 degrees, shall be considered as having central visual acuity of 20/200 or less.

❑ **Hearing Impairment** –with hearing aids, hearing in each ear is NOT restored to one of the following levels:

- Average hearing threshold for air conduction of 90 decibels or greater and for bone conduction to corresponding maximum levels, determined by the simple average of hearing threshold levels at 500, 1000 and 2000 HZ.
- Speech discrimination scores of 40% or less in each ear.

❑ **Ambulatory Disability/Disorder of Gait**

- From whatever cause, the applicant is unable to move about without a walker, wheelchair, wheelchair stroller, crutch(es), cane or other mobility/ambulation aid at all times. *The word "unable" is used in its literal sense. The fact that one of these mechanical aids facilitates movement is not sufficient.*
- The applicant is unable to move about without the use of the following aid:
  –wheelchair – wheelchair stroller –cane –crutch(es)
  –walker –other ambulation aid _____

❑ **Loss of Both Hands** –by reason of amputation or anatomical deformity, the person lacks both hands.

❑ **Intellectual Disability and/or Other Mental Capacity Impairment** – the scores specified below refer to those obtained on the W.A.I.S. and are used only for reference purposes. Scores obtained on other standardized individually administered tests are acceptable, but the numerical values obtained must indicate a similar level of intellectual functioning:

- The person is mentally incapacitated such that he or she is dependent upon others for personal needs (e.g. toileting, eating, dressing or bathing) AND is unable to follow directions, such that the use of standardized measures of intellectual functioning is precluded
  Or
- Based on a valid verbal, performance, or full-scale IQ test, the person has an IQ of 59 or less
  Or
- Based on a valid verbal, performance, or full-scale IQ test, the person has an IQ of 60 to 70 AND either (a) is unable to perform routine repetitive tasks or (b) has another mental capacity impairment that imposes additional and significant limitation of mobility or gait.

❑ **Other Organic Mental Capacity Impairment** – The person experiences mental incapacity due to organic cause(s) to impose significant limitation in the utilization of mass transit facilities or services effectively.

In all cases please check one of the following:

I estimate that the duration of the applicant's disability(ies) will be:

- ❑ Permanent (more than 12 months)
- ❑ Temporary (more than 3 months, but fewer than 12 months)
